What is the 3-1-1 Rule on British Airways? A Complete UK Guide to Hand Luggage Liquids

You have packed your bags, double checked your passport, and arrived at the airport feeling ready for your holiday ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Then, at security, an officer tells you that your favourite bottle of perfume or that jar of expensive face cream cannot go through ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). It is a frustrating experience, but it is entirely avoidable if you understand one simple regulation ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

If you are flying with British Airways, you need to know about the 3-1-1 rule ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This is the international security standard that controls how much liquid you can bring in your hand luggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). While some UK airports have recently introduced new technology that changes the rules, the 3-1-1 rule remains the safety net that will get you through any airport in the world without trouble ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

This guide will explain exactly what the 3-1-1 rule means for British Airways passengers, how to pack your liquids correctly, and what has changed at UK airports in 2026 ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). We will cover the specific limits, the items that count as liquids, and the exceptions that might apply to you ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

What the 3-1-1 Rule Actually Means on British Airways

The name "3-1-1" is a simple way to remember three critical numbers ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you memorise these numbers, you will never have a problem with your liquids at security again ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The rule dictates exactly how much liquid you can bring in your carry-on baggage on a British Airways flight ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

The First Number: 100 Millilitres per Container

The first number refers to the size of the container ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Each individual container of liquid, gel, cream, or aerosol that you bring in your hand luggage must hold no more than 100 millilitres ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). In imperial measurements, this is roughly 3 ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).4 fluid ounces ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

It is vital to understand that this refers to the size of the bottle, not how much liquid is left inside ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you have a 200 millilitre shampoo bottle that is only half full, it still contains 100 millilitres of product, but the bottle itself exceeds the limit ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Security officers look at the label on the container, not how much you have used ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You cannot bring a large bottle even if it is almost empty ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

This catches many travellers out ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). That expensive moisturiser you have been using for months? If the tube says 150ml, it is not allowed through security, regardless of how much product remains inside ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

The Second Number: One Clear Resealable Bag

The second number refers to the bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). All of your small liquid containers must fit inside a single, transparent, resealable plastic bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This bag must have a maximum capacity of one litre ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

In the United Kingdom, you will commonly see this specified as a bag measuring approximately 20 centimetres by 20 centimetres ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The key requirements are that the bag must be clear so security officers can easily see what is inside without opening it, and it must be resealable, like a zip lock bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). A simple sandwich bag or a dedicated travel liquids bag from a pharmacy works perfectly ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

The Third Number: One Bag per Passenger

The third number is the easiest to remember ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You are allowed only one such plastic bag per passenger ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You cannot bring two separate bags, even if you are travelling together as a couple and put one bag in each suitcase ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Each individual traveller must fit all of their liquid items into a single one litre clear bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you are carrying a handbag and a backpack, you still only get one liquid bag between them ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

What Counts as a Liquid Under British Airways Rules

This is where most passengers get caught out ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You might think a liquid is just water, juice, or soda ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). But in the world of airport security, the definition is much broader ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Personal Care and Toiletry Items

If an item can be poured, spread, sprayed, squirted, or smeared, it is generally classified as a liquid and must go into your clear plastic bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This includes many toiletry items that you might not immediately think of ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Toothpaste is a classic example ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). It is a paste, so it counts as a liquid ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The same goes for hair gel, moisturiser, sunscreen, liquid foundation, and shaving foam ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Your morning routine of deodorant spray, aftershave balm, and liquid soap all need to fit inside that single bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Even lip gloss and liquid lipstick fall under this category ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Food Items That Surprise Travellers

Food items can also be surprising ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Peanut butter, jam, honey, maple syrup, and yoghurt are all considered liquids because they are spreadable or pourable ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you are bringing a salad dressing, soup, or sauce for your

flight, these must adhere to the same 100 millilitre rules ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Items That Are Not Liquids

Solid items are generally fine to pack outside the plastic bag without restriction ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). A bar of soap, solid deodorant stick, powder, and dry shampoo are all permitted ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). However, if you are unsure about a specific item, it is always safer to pack it in your clear bag or put it in your checked luggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

The Major Changes at UK Airports in 2026

This is where things get a bit more complicated, and it is vital that UK passengers understand the current situation ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The rules are changing, but not everywhere at the same time ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

New Scanners at Major Airports

London Heathrow, the UK's busiest airport, has completed a £1 billion rollout of new high-tech CT scanners across all its terminals ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). These new machines create detailed 3D images of the contents of your bag, allowing security officers to examine items from every angle ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Because of this advanced technology, passengers at Heathrow no longer need to follow the traditional 3-1-1 rule ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

At these upgraded airports, you can now leave liquids and laptops inside your bag when you go through security ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The 100 millilitre limit has been scrapped, and passengers can carry containers up to two litres in their hand luggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This is a significant change that speeds up the security process dramatically ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Not Every Airport Has Changed Yet

However, here is the crucial warning ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Not every airport has installed these new scanners ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). While Heathrow, Gatwick, Birmingham, Edinburgh, and Bristol have made the change, many smaller regional airports and international destinations still operate under the traditional 100 millilitre limit ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

This means that the rules you face depend entirely on which airport you are flying from ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you depart from Heathrow, you can take larger liquids ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). But if you return from a smaller airport in Europe or a regional airport in the UK that has not yet upgraded, you will be back to the 3-1-1 rule ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Why You Should Still Follow the 3-1-1 Rule

The safest approach for any British Airways passenger in 2026 is to continue following the 3-1-1 rule regardless of where you are flying from ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Why? Because your journey might involve a connection at an airport that still uses the old scanners ☎🔰+1-866-690-1240 (US)

OR+44-808↪196⇏27.56 (UK). If you pack a large 500 millilitre bottle for your outbound flight from Heathrow, you might have to throw it away on your return journey from an airport that has not yet upgraded ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

By sticking to the 100 millilitre containers in a single clear bag, you guarantee a smooth experience no matter what technology any airport uses ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). It is the universal standard that works everywhere ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

The Story Behind the Rule

The 3-1-1 rule is not just a random inconvenience designed to frustrate travellers ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). It exists for a very specific and serious reason ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

In 2006, British authorities uncovered a terrorist plot to bring liquid explosives disguised as soft drinks onto multiple transatlantic flights ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The plan involved mixing chemicals that appeared harmless separately but could create a powerful explosion when combined on board ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This plot, which became known as the transatlantic aircraft plot, led to immediate and sweeping changes to airport security worldwide ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Security experts determined that limiting liquids to containers of 100 millilitres or less provided a critical safety buffer ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This volume is too small to create a catastrophic explosion ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). By requiring these small bottles to be stored in a single, clear, resealable bag, security scanners can easily analyse the contents without the visual clutter of other luggage items ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

While the rule can feel like a nuisance when you are trying to pack your favourite shampoo, it remains a vital layer of protection for every passenger on board ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Special Exceptions to the 3-1-1 Rule

While the 3-1-1 rule applies to almost every passenger, there are a few specific exceptions that British Airways and UK security allow for genuine needs ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Essential Medication

If you need liquid medication that exceeds the 100 millilitre limit, you are generally allowed to bring it in your carry-on baggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). However, you must keep it separate from your standard liquids bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You may only take the quantity you will require during your journey ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

British Airways strongly recommends that you carry a medical certificate, a prescription, or a doctor's letter in English to present to security staff ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This proves that the medication is necessary for your health ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). It is also wise to keep medication in its original packaging with the pharmacy label clearly visible ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Baby Food and Formula

If you are travelling with an infant, you are allowed to bring baby food, formula, expressed breast milk, or sterilised water in your hand luggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Again, you should only bring the amount needed for the flight ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You do not need to pack these items inside your one litre clear plastic bag, but you must be prepared to present them separately at security for inspection ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Duty Free Liquids

If you purchase liquids at an airport after passing through security, such as from a duty free shop, you are allowed to take them on board even if they exceed 100 millilitres ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). However, they must be transported in a sealed, tamper evident security bag provided at the point of purchase ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The receipt must be visible inside the bag, and the seal must remain intact until you reach your final destination ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

If you have a connecting flight, this becomes more complicated ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You may need to go through security again at your connecting airport, and your duty free liquids could be confiscated if they do not meet the local rules ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Common Items That Break the Rule

British Airways has warned passengers about several specific items that frequently cause problems at security because travellers do not realise they count as liquids ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Snow Globes

One of the most surprising offenders is the humble snow globe ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). These popular souvenirs contain sealed liquid and glitter inside a glass or plastic casing ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The liquid volume almost always exceeds the 100 millilitre limit, making snow globes a banned item in hand luggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

The Civil Aviation Authority classifies snow globes as restricted items in cabin baggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you bring one in your hand luggage, security staff are required to remove and confiscate it during screening ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). British Airways advises passengers to pack such items in checked luggage instead to avoid delays or confiscation at security checkpoints ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Aerosols and Sprays

Many passengers forget that deodorant sprays, hairsprays, and dry shampoo aerosols count as liquids ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). These items must fit within the 100 millilitre limit and go inside your clear plastic bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Practical Packing Tips for British Airways Passengers

Knowing the rule is one thing, but applying it correctly is another ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). A little bit of preparation before you leave home can

save you a huge headache at the airport ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Check Your Containers Before You Pack

Start by gathering all of your toiletries and examining the labels ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Look for the millilitre measurement ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The limit is 100 millilitres ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you have larger bottles, you have two choices ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You can either transfer a small amount of product into smaller, travel sized bottles that clearly show they are under the limit, or you can pack the large bottles in your checked luggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Remember, the 3-1-1 rule only applies to carry-on baggage ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). There are no liquid restrictions for the suitcases you hand over at the check-in desk, though they must comply with dangerous goods regulations for flammable items ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Use the Right Bag

Once you have your small bottles, place them all into a single clear, resealable plastic bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Do not overstuff the bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). It must close easily ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If you have to force the zip lock shut, the bag is too full, and security may reject it ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You can buy these bags specifically for travel at most airports and supermarkets, or you can simply use a standard kitchen zip lock bag ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Keep the Bag Accessible

Keep this bag at the top of your carry-on luggage or in an outer pocket where you can grab it quickly ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You will need to remove it from your bag and place it in a separate tray at security ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Having it ready to go will speed up your passage through the checkpoint ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Frequently Asked Questions About the British Airways 3-1-1 Rule

Here are the five most common questions UK travellers have about packing liquids for British Airways flights ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Does the 3-1-1 rule apply to all British Airways flights?

The rule applies to security screening at airports, not to the airline directly ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). However, British Airways enforces the security mandates of the countries and airports it serves ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). For flights departing from UK airports that have not yet installed new CT scanners, the 3-1-1 rule applies fully ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). At upgraded airports like Heathrow, the rule has been relaxed, but it is still wise to follow it for consistency ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Can I bring a 100ml bottle that is only half full?

No, you cannot ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The rule is based on the maximum capacity printed on the container by the manufacturer, not the

actual volume of liquid inside ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). If the bottle says 200ml on the label, it is not permitted in your hand luggage, even if there is only 50ml of product left inside ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You must transfer the liquid to a smaller bottle that clearly shows a capacity of 100ml or less ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

What happens if I forget to take my liquids bag out at security?

If you leave your liquids bag buried inside your carry-on luggage, the X-ray machine operator will see it ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). In most airports, your bag will be flagged, and you will be pulled aside for a secondary search ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). The security officer will then ask you to open your bag and remove the liquids ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). This process adds significant time to your screening ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). In some cases, if the officer is in a hurry, they may simply confiscate the bag and its contents ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). To avoid delays, always take the bag out and place it in the tray separately ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Can I take more than one liquids bag if I have a medical need?

If you have essential liquid medication that exceeds the 100ml limit, you are allowed to carry it separately ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). However, you must declare these items at security and present supporting documentation such as a prescription or doctor's letter ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You should not put your medication in the standard 3-1-1 bag if it exceeds the limits ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). Keep it separate and be prepared to explain your need to the security officer ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Does the rule apply to flying out of London Heathrow with British Airways?

As of 2026, London Heathrow has installed new CT scanners across all terminals, which means the traditional 3-1-1 rule no longer applies at that airport ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). You can leave liquids and laptops in your bag, and there is no 100ml limit ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). However, if you are connecting through another airport or returning from a destination that has not yet upgraded, you will need to follow the 3-1-1 rule ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). For the safest travel experience, continue to pack 100ml containers in a clear bag regardless of where you start your journey ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

Conclusion

The 3-1-1 rule on British Airways is your key to a smooth security experience ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). While 2026 has brought exciting changes to major UK airports like Heathrow and Gatwick, where new scanners allow larger liquids to stay in your bag, the traditional rule remains the gold standard for international travel ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).

By packing your liquids in 100 millilitre containers, placing them all in one clear resealable bag, and keeping that bag accessible, you guarantee yourself a hassle free journey no matter which airport you fly from ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK). It is a small amount of preparation that saves you from the frustration of having your expensive toiletries confiscated at security ☎🔰+1-866-690-1240 (US) OR+44-808↪196⇏27.56 (UK).
